The true colours of orange...

One of the great minds said: Imagination is more important than knowledge.

There is unbelievable power, which we as individuals now command thanks to technology and communication. The world is no longer round; it is flat as we can walk across it at the click of a mouse.

'ORANGE' is singular; no word in the dictionary actually rhymes with it. Likewise, Orange Impex Pvt. Ltd. is the only singular company with a plethora of options serving the world of Multimedia and Technology.

OIPL though one; has many factions which deal in Web, Multimedia, Animation, I-T System Integration, Consultancy, Design Visualization, Architectural Illustrations and so on.

OIPL is the new nomenclature of technology with elegance personified. With an eye on details and modern-day needs; we have nurtured a dream and now is the right time to start living it. We want to create opportunities; products; collaborative communities; profits and of course, dreams.
